

Nice JR 9303 transmitter. Bought as a fixer upper, replaced broken antenna with a new one and added a jst to Spektrum adapter to battery box as previous owner had replaced the Spektrum battery plug with a jst plug, see pictures. Like new bright display screen as it had the screen protector on it. Very clean case and switches. Battery is one of my spares (it didn't have a working battery when I bought it) that holds a charge and is very useable. I'd rate it a 9 out of ten. No charger but they are available on eBay for about \$15. Also no transport case. Users manual available online. Asking \$100. Joe Matusic 703-598-5604
